Eltoncollection

Design Ludovica Serafini + Roberto Palomba

Elton è una collezione che sublima la capacità di Talenti di assottigliare i confini tra l'indoor e l'outdoor attraverso la ricercatezza delle forme e dei materiali. Una componibilità senza pari che introduce un nuovo modo di vivere gli spazi esterni: per la prima volta schienali e braccioli dei sofa diventano inclinabili grazie ad un meccanismo integrato nella struttura che ne consente la regolazione. Tecnologia a servizio del design, in grado di donare al divano una sinuosità estetica senza precedenti e di giocare sulla possibilità di personalizzare in toto il proprio comfort. La collezione si compone inoltre di tavoli caffè in caldo Accoya, natural o palissandro, impreziositi da eleganti top in vetro smaltato.

Elton is a collection that sublimates Talenti's ability to thin the boundaries between indoors and outdoors through the refinement of shapes and materials. An unparalleled modularity that introduces a new way of experiencing outdoor spaces: for the first time the backrests and armrests of the sofas become tiltable thanks to a mechanism integrated into the structure that allows them to be adjusted. Technology at the service of design, capable of giving the sofa an unprecedented aesthetic sinuosity and playing on the possibility of fully personalizing your comfort. The collection also consists of Accoya, natural or rosewood hot coffee tables, embellished with elegant enamelled glass tops.

Itacacollection

Design Carlo Colombo

Itaca è un invito a vivere il proprio spazio outdoor con eleganza e comfort, attraverso una componibilità senza precedenti. Ispirandosi all'iconico viaggio di Ulisse per mari e terre lontane, Carlo Colombo dà vita ad un'oasi di piacere in cui ritrovarsi, per godere della familiarità del proprio angolo di paradiso all'aperto. Proprio come isole di un arcipelago, i variopinti moduli di Itaca si aggregano e si dividono per formare composizioni sempre originali, in continuo movimento e in grado di adattarsi ad ogni esigenza di spazio o utilizzo. I profili arrotondati caratterizzano l'Accoya®, utilizzato per le solide basi, nelle varianti color miele e palissandro, e si ripropongono nelle sezioni di marmo e travertino che impreziosiscono i tavoli caffè e pranzo.

Itaca is an invitation to experience your own outdoor space with elegance and comfort, through extraordinary modularity. Inspired by the iconic journey of Ulysses to distant seas and lands, Carlo Colombo creates an oasis of pleasure in which to find yourself, to enjoy the familiarity of your own corner of paradise outdoors. Just like islands of an archipelago, the multicolored modules of Itaca come together and divide themselves to form compositions that are always original, in continuous movement and able to adapt to any need in space or use. The rounded profiles, characterize the Accoya®, used for the solid bases, in honey and rosewood variants, and are the same we find in the sections of marble and travertine that embellish the coffee and dining tables.

Nalucollection

Design Ludovica Serafini + Roberto Palomba

Nalu è una famiglia di arredi completa dove il richiamo alla fluidità delle onde riscrive il modo di intendere il legame tra rivestimento e struttura, fra geometrie rette e curve imprevedibili. Una nouvelle vague in cui grazia e potenza convergono per dare vita a qualcosa che va oltre il semplice elemento decorativo per sfociare in un universo omnicomprensivo di prodotti. Per questo progetto l'eclettica mente dello studio Palomba-Serafini si è ispirato allo stile dei maestri degli anni d'oro del design italiano, sviluppando l'idea di un cuscino unico che ripiegandosi genera sedute e schienali, in una sorta di onda, dai colori vibranti e in abbinamento alle strutture asimmetriche dei tavoli pranzo e caffè.

Nalu is a complete furniture family where the call to fluidity of waves rewrites the way of understanding the link between coating and structure, between straight geometries and unpredictable curves. A nouvelle vague in which grace and power converge to give life to something that goes beyond the simple decorative element to flow into an all-encompassing universe of products. For this project the studio Palomba-Serafini was inspired by the style of the masters of the golden years of Italian design, developing the idea of a unique cushion that, by folding, creates seats and backs in a kind of wave, with vibrant colors and in combination with the asymmetrical structures of the dining and coffee tables.

Venicecollection

Design Ludovica Serafini + Roberto Palomba

Il desiderio di leggerezza si fa reale con gli elementi arredo che sembrano fluttuare di Venice, collezione ispirata all'omonima città, dello studio Palomba-Serafini. Come battelli sul corso d'acqua, ampie sedute dalle linee morbide sono adagiate su solide basi di legno, da cui emergono, come artigianali parapetti di un vascello, schienali e braccioli rivestiti in pieno stile nautico. Monolitici ed eleganti i tavoli in pietra lavica, in lucida finitura ceramizzata che in tutte le loro colorazioni vogliono richiamare alla mente le sfumature calde al tramonto e fredde al crepuscolo dei nostri mari.

The desire for lightness becomes real with the furniture elements that seem to float of Venice, a collection inspired by the homonymous city, by the Palomba-Serafini studio. Like boats on the watercourse, wide seats with soft lines are laid on solid wooden bases, from which emerge, like handcrafted railings of a vessel, backs and armrests covered in full nautical style. Monolithic and elegant tables in lava stone, in glossy ceramic finish that in all their colors want to recall the warm shades at sunset and cold at dusk of our seas.

Design Ludovica Serafini + Roberto Palomba

Un progetto che nasce dallo scopo di unire leggerezza e comodità nella vita en plain air, andando a ridisegnare situazioni che trasmettano sensazioni di intimità e relax, sempre nel massimo rispetto dell'equilibrio ma soprattutto della proporzione. La struttura in acciaio inossidabile è il fil rouge del progetto, totalmente rivestita da un intreccio in corda leggermente imbottita. Un design avvolgente, che per i materiali utilizzati, strizza l'occhio al mondo della nautica. Alla leggerezza visiva della struttura intrecciata fanno da contrappunto cuscini di seduta e schienale generosamente imbottiti.

A project that was created with the aim of combining lightness and comfort in life in the open air, redesigning situations that convey feelings of intimacy and relaxation, always with the utmost respect for balance but above all for proportion. The stainless steel structure is the fil rouge of the project, totally covered with a slightly padded rope weave. An enveloping design whose materials are reminiscent of the nautical world. The visual lightness of the woven structure is counterpointed by generously padded seat and back cushions.

Juncollection

Design Marco Acerbis

Dalla mente eclettica di Marco Acerbis, nasce Jun, una collezione che combina l'eleganza del teak e le sedute generose ma compatte, in pieno stile orientale. I tubolari in legno e le sedute comunicano grazie ai rivestimenti in tessuto bouclé tono su tono degli schienali e dei braccioli, facilmente sfoderabili. I tavoli in legno dalle forme irregolari sono impreziositi da piani in gres vetrificato, offrendo un perfetto equilibrio tra comfort e stile, rendendo ogni spazio esterno un'oasi di lusso contemporaneo.

From the eclectic mind of Marco Acerbis, Jun was born, a collection that combines the elegance of teak and the generous but compact seats in full oriental style. The wooden tubular furniture and the seats communicate thanks to the tone-on-tone bouclé fabric upholstery of the backrest and armrests, which can be easily removed. The irregular shaped wooden tables are embellished with glass stoneware tops, offering a perfect balance between comfort and style, making every outdoor space an oasis of contemporary luxury.

Flowcollection

Design Ludovica Serafini + Roberto Palomba

Comfort e multi-materialità sono gli elementi chiave di questa collezione che, come rievoca il nome, vuole trasmettere una sensazione di fluidità. Una raccolta di elementi dove i cuscini avvolgenti, abbinati a materiali ricercati e a tessuti a righe dal forte valore decorativo, contribuiscono a portare l'atmosfera dell'indoor negli spazi esterni. La struttura in alluminio, si integra armoniosamente con le sinuose lavorazioni di legno, esaltando il know di Talenti nella realizzazione di arredi che fondono materiali apparentemente lontani. Il risultato è un mix raffinato tra il calore tradizionale del teak e la forza estetica degli elementi laccati, in grado di formare una famiglia di prodotti completa e versatile che include divani componibili, poltrone lounge, tavoli e sedute dining.

Comfort and multi-materiality are the key elements of this collection which, as the name recalls, aims to convey a feeling of fluidity. A collection of elements where enveloping cushions, combined with refined materials and striped fabrics with a strong decorative value, contribute to bringing the indoor atmosphere into outdoor spaces. The aluminum structure, integrates harmoniously with the sinuous woodwork, enhancing Talenti's know-how in the creation of furnishings that blend apparently distant materials. The result is a refined mix between the traditional warmth of teak and the aesthetic strength of lacquered elements, capable of shaping a complete and versatile family of products including modular sofas, lounge armchairs, dining tables and seats.

Tressécollection

Design Carlo Colombo

Dalla ricerca di eleganza che contraddistingue la produzione dell'architetto Carlo Colombo nasce Tressé, collezione che emana al contempo solidità e comfort. Tutto ruota attorno allo studio del cubo come elemento primordiale in cui trovare ordine e da elevare attraverso finiture di pregio. Tra queste il sofisticato intreccio di fasce in ecopelle che abbraccia l'intero perimetro delle sedute e che si pone come elemento distintivo dell'intera collezione, declinato nelle varianti cromatiche in grado di adattarsi a qualsiasi ambiente che vanno dal freddo grigio seta, al più intenso e deciso fango, fino a spiccare con il caldo terra di Siena.

From the search for elegance that distinguishes the production of the architect Carlo Colombo was born Tressé, a collection that radiates both solidity and comfort. Everything revolves around the study of the cube as a primordial element in which to find order and to elevate through fine finishes. These include the sophisticated interweaving of eco-leather bands that embraces the entire perimeter of the seats and that stands as a distinctive element of the entire collection, declined in color variations that can adapt to any environment ranging from cold gray silk, to the most intense and decisive mud, up to stand out with the warm land of Siena.

Salinascollection

Design Ludovica+Roberto Palomba

La collezione Salinas trae ispirazione dall'omonima regione naturale di Ibiza. Un progetto in cui si è voluto portare la raffinatezza tipica dell'indoor nel mondo outdoor, accorciando sempre più la distanza tra i due ambienti mettendoli in continuità. La collezione è composta da divani e poltrone in cui la componente tessile è predominante. La cinghia imbottita ed i preziosi dettagli metallici visibili nei terminali degli schienali, conferiscono alla collezione fascino ed eleganza senza tempo.

The Salinas collection draws inspiration from the homonymous natural region in Ibiza. Through this project, Ludovica + Roberto Palomba bring the typical refinement of the indoor world into the outdoor world, shortening the distance between the two environments, bringing them into continuity. The collection consists of sofas and armchairs in which the textile component is predominant. The padded belt and the precious metal details visible in the ends of the backrests create an elegant and timeless charm.

Argocollection // Wood

Design Ludovica Serafini + Roberto Palomba

Collezione ispirata al tema della scatola di legno, si presenta con un linguaggio rigoroso, pulito e geometrico, caratterizzata da grandi fascioni laterali che contengono la cuscinatura e rendono la seduta profonda ed accogliente. A questo gioco abbiamo voluto unire dei piedi a slitta creando così una magica sospensione dell'imbottito e delle proporzioni. La collezione si arricchisce con un imbottito dalla forma scultorea, caratterizzata da un avvolgente volume intrecciato. Generose le sedute imbottite e il particolare piede in legno che dialoga perfettamente con gli altri elementi della collezione.

Argo collection is inspired by the theme of the wooden box and shows a rigorous, clean and geometrical language. The collection is characterized by big lateral waistbands that contain the cushions and make the seat deep and cosy. To this play we intentionally added a sledge base in order to create a magical suspension of padding and of proportions. The collection is enriched by a padding with sculptural shape, whose peculiarity is an all-embracing intertwined volume. The abundant padded seats and the particular wood feet, perfectly dialogue with the other element of the collection.

Argocollection // Alu

Design Ludovica Serafini + Roberto Palomba

Argo, un nome evocativo, ricorda l'antica e mitologica nave che veleggiò tra le isole greche alla ricerca del vello d'oro. Argo alluminio è un sistema di arredi outdoor che coniuga una grande ricerca estetica e una grande libertà sul piano compositivo. Argo è un progetto caratterizzato da un'estetica contemporanea; alla rigorosa struttura in alluminio si contrappone la generosità dei cuscini imbottiti. La struttura rivestita in cinghie elastiche ne sottolinea le forme profonde ed accoglienti, ad essa sono uniti dei piedi a slitta che creano una magica sospensione dell'imbottito e delle proporzioni.

Argo, a mythological name, that is inspired by the mythological wooden boat that sailed around the Greek islands, in search of the legendary golden fleece. Argo aluminum is an outdoor furnishing system that is a perfect match of a great aesthetic experimentation and extraordinary versatility in terms of personalization. Argo is a project characterized by a contemporary aesthetic. The generous size of the upholstered cushions offsets the austerity of the aluminum structure. The frame covered by elastic belts emphasises the deep and cosy shapes which characterize the collection, magically suspended on the sledge feet which create a perfect balance between the upholstery and the shapes of this new modular sofa.
